WDEQ Class III seems to always struggle with reporting, I suspect it has to do with the volume of wells they deal with. I just reviewed their numbers and it's not good. I've offered LQD assistance in understanding this. Won't be able to submit to HQ COB today, but will try to do so by end of year.

Valois, We need to keep this in mind with reporting DB's numbers. You'll likely have manifolds and transient wells. We can work together on how best to do this in the MRDB and may need to enhance the current plan.

If you have not reviewed and submitted your EOY 7520 forms from your state counterparts by COB, please let me know. We have until the end of the month, but I want to ensure we leave enough time to resolve any issues, etc.

Thanks!

UIC Technical POs: Given holiday schedules, please review EOY 7520 forms from your respective state/tribal UIC programs in the UIC reporting application NLT Friday, December 13th and submit the reviewed forms to EPA Headquarters.

If you are having issues or believe you cannot meet this deadline, please let Valois and I know asap.

Here is the link to the UIC reporting app:

Douglas,

All the states have submitted the 7520 forms.

WY 1422 has left the forms as "draft" probably to allow them to be available for the Class III program to enter data. I will let Wendy know.

I will get with Martina to see if she needs help with reporting.

The forms are ready for review by State POs. The deadline for getting them to HQ is Jan 1, 2020. Would you let the project officers know this, please?

Thanks!

Valois

Hi Valois: hopefully you will find this email by tomorrow as you catch up. Any sense how we/the Section are/is doing in this regard?

HQs is asking what HQs can do to help, but not clear if we in R8 are having problems. Please let me know if we are having issues in getting that information to HQs or with the App in general.

Thanks!
D
